Use of AI In Daily Life & Scope of AI in Jobs

PRESENTED BY KAMALNAINX

How many of you used AI today’s life

WITHOUT REALIZING IT?

“YOU ALREADY USE AI DAILY—LET’S DISCOVER HOW!”

AI in Daily Life

Voice assistants like **Google Assistant**

OTT & apps recommending content (**Netflix**, YouTube)

Face unlock in smartphones

Chatbots like **ChatGPT**

Google Maps (traffic prediction)

“AI tools are helping in writing, designing, coding, and even making videos”

“students who learn these tools will have an advantage in future jobs.”

Activity Time:-

5 AI TOOLS CATEGORY YOU USED

AI Tool Categories

- AI Chatbots & Writing Tools
- AI Image Generation Tools
- AI Video Creation Tools
- AI Voice & Audio Tools
- AI Coding Tools
- AI for Students & Learning
- AI for Presentations & Productivity
- AI for Business & Marketing

AI Tools:-

MAKE A LIST OF 10 AI TOOLS YOU USED

AI Tools with example :-

1. AI Chatbots & Writing Tools

- **ChatGPT** – Chat, content writing, coding help
- **Google Gemini** – AI assistant by Google
- **Copy.ai** – Marketing content
- **Jasper AI** – Blog & ad writing

2. AI Image Generation Tools

- **DALL·E** – Create images from text
- **Midjourney** – Artistic images
- **Canva AI** – Posters, designs
- **Leonardo AI** – Game & creative art

3. AI Video Creation Tools

- **Synthesia** – AI avatars for videos
- **Pictory** – Convert text into video
- **Runway ML** – Video editing & effects

4. AI Voice & Audio Tools

- **ElevenLabs** – Realistic voice
- **Murf AI** – Voice for presentations
- **Soundraw** – Create music

AI Tools with example :-

5. AI Coding Tools

- **GitHub Copilot** – Helps write code
- **Replit Ghostwriter** – Code suggestions

6. AI for Students & Learning

- **Khanmigo** – Learning assistant
- **Grammarly** – Grammar correction
- **QuillBot** – Rewrite content

7. AI for Presentations & Productivity

- **Beautiful.ai** – Smart slides
- **Tome** – AI slides
- **Notion AI** – Notes & planning

8. AI for Business & Marketing

- **HubSpot AI** – Marketing automation
- **Surfer SEO** – Website ranking
- **Writesonic** – Ads & blogs

How AI Works

AI learns from **data**

Finds **patterns**

Makes **decisions**

Example:
“If you watch comedy videos → YouTube shows more comedy”

AI in Different Industries

🏥 Healthcare

- Disease detection
- AI-based reports

🛒 E-commerce

- Product recommendations
- Chatbots

🎓 Education

- Personalized learning
- AI tutors

🚗 Transportation

- Navigation & self-driving concepts

Scope of AI in Jobs

Scope of AI in Jobs

💼 High-Demand AI Careers:

- AI Engineer
- Data Scientist
- Machine Learning Engineer
- AI Researcher
- Prompt Engineer

📊 Non-Tech Jobs Using AI:

- Marketing (AI ads, content tools)
- Finance (fraud detection)
- HR (resume screening)
- Design (AI tools)

Will AI Replace Jobs?

Now I would like to Ask a Question:

- “Will AI take your job?”

Some jobs may reduce

New jobs are created

People who use AI will win

Balanced Answer:

"AI will not replace humans, but humans using AI will replace humans who don’t."

Basic AI understan ding
Tools like AI chatbots
Must-Have Skills:
Communi cation skills
Creativity
Problem-solving

Activity Time

Human or AI?

The sun set over the ocean, painting the sky in hues of orange, pink, and purple. Waves gently lapped at the shore, the sound a soothing melody. A cool breeze carried the scent of salt and adventure, as stars began to twinkle in the twilight sky.

The sun dipped below the horizon, casting the sky in **vibrant shades of magenta** and **gold.** The waves **whispered** against the sandy **shore**, while **a gentle breeze** brought the **tang of salt air**.

Stars sparkled above as dusk wrapped the world in **twilight.**

Human or AI?

The sun set over the ocean, painting the sky in hues of orange, pink, and purple. Waves gently lapped at the shore, the sound soothing the ear. A cool breeze carried the scent of salt and adventure, as stars began to twinkle in the twilight sky.

HUMAN

The sun dipped below the horizon, casting the sky in vibrant shades of magenta and **gold**. The waves **whispered** against the sandy shore, while a gentle **breeze** brought the **tang of salt air**.

Stars sparkled above as dusk wrapped the world in **twilight**.

AI

Why?

AI Generated

Unrealistic lighting & magical environment

- Perfect symmetry and fantasy-style details
- Looks like something created by tools like **Midjourney** or **DALL·E**

Human (Real Photo)Why?

- Natural lighting and shadows
- Real human posture and environment
- Small imperfections (which AI often struggles to replicate perfectly)

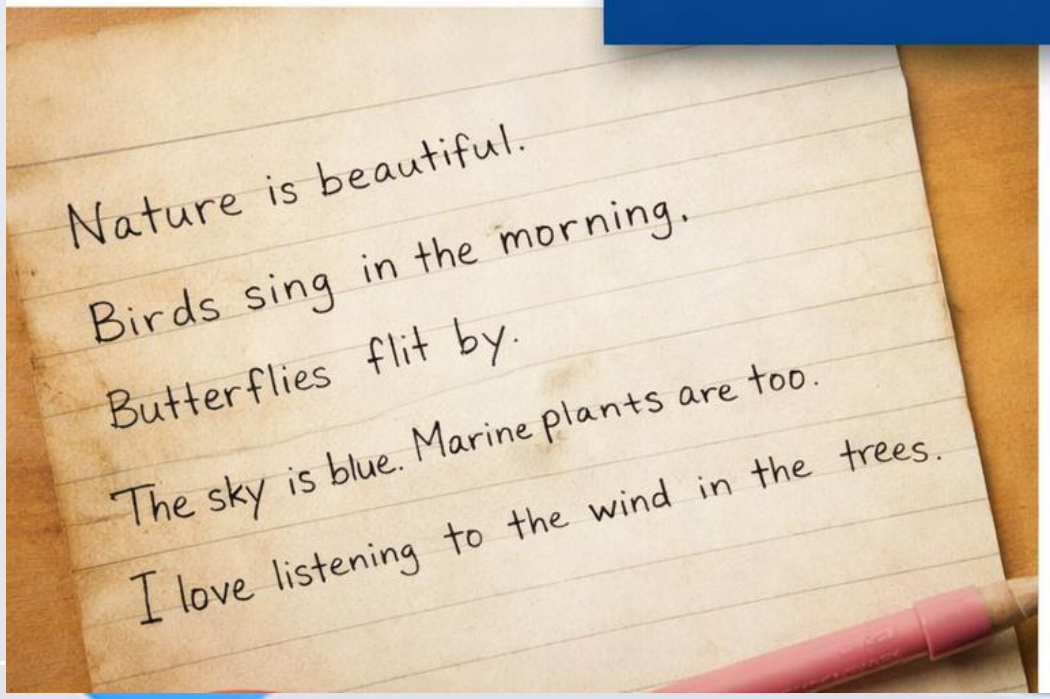
Human Written Why?

- Slightly traditional, poetic tone
- Natural flow with subtle imperfections
- Feels like literature written by a person

AI Generated Why?

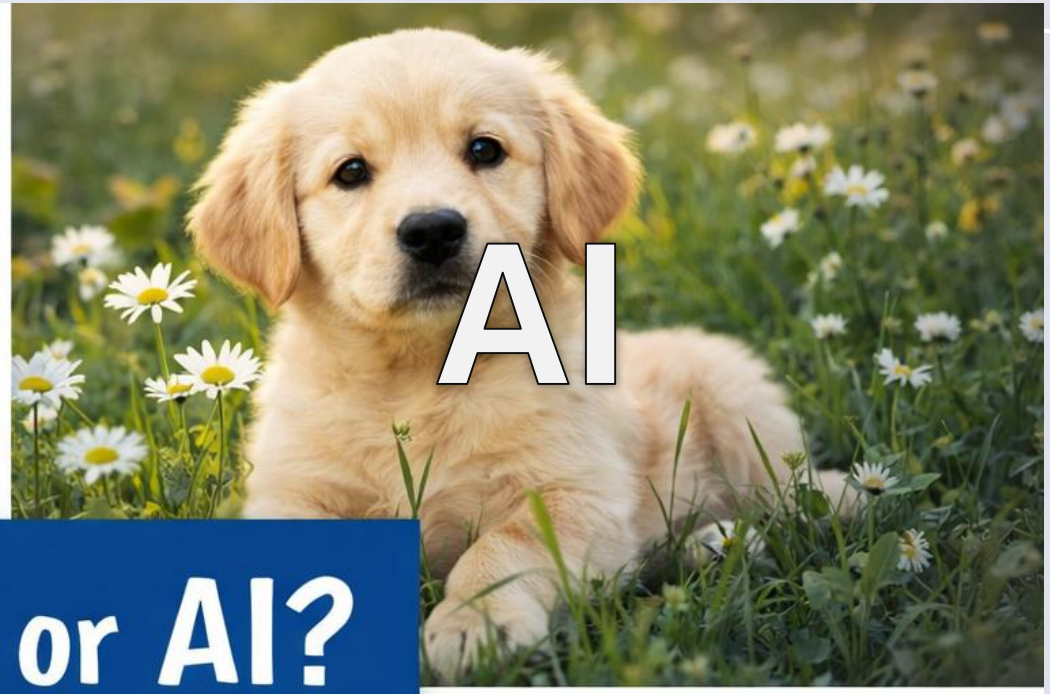
- Very structured and polished
- Uses trendy descriptive words (like “vibrant shades”, “whispered”)
- Looks similar to output from **ChatGPT**

Human or AI?

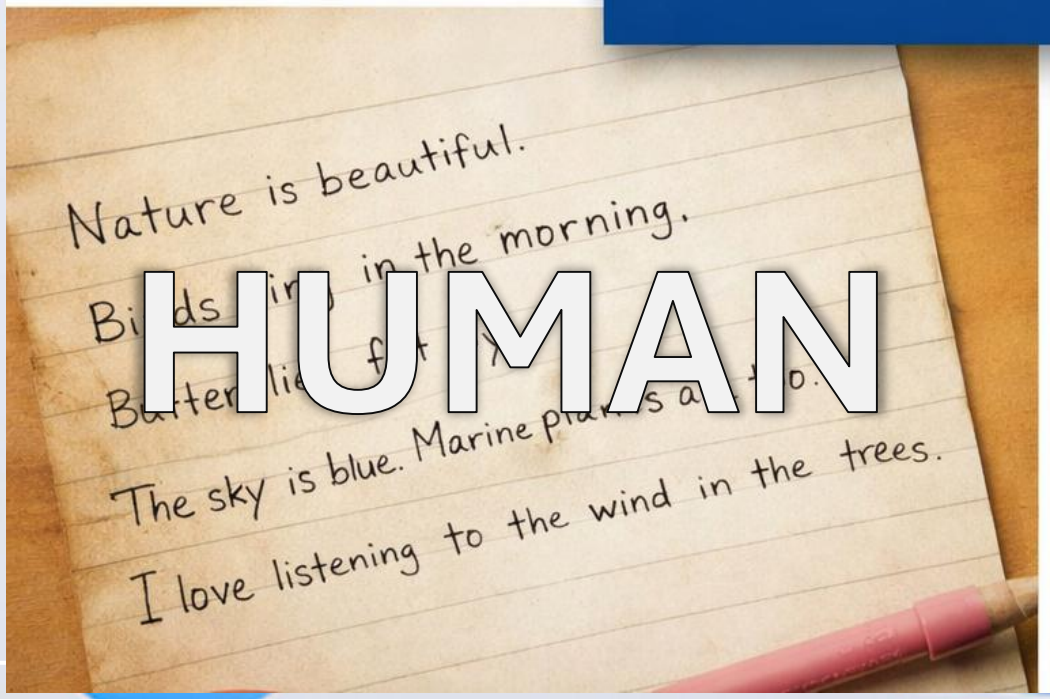


The-beauty of nature is all around us. In the morning, **birds sing sweetly**, and **butterflies** flutter gracefuly.

The sky exhibits a **soothing blue** hue, while lush **greenery sways** with the **gentle breeze**.



Human or AI?



The beauty of nature is all around us. In the morning, **birds sing sweetly**, and **butterflies** flutter **gracefuly**. The sky exhibits a **soothing blue** hue, while lush **greenery sways** with the **gentle breeze**.

AI

Why?

(Girl with butterflies)AI-generated

- Too perfect lighting
- Unrealistic butterfly positioning
- Smooth, “dream-like” effect

(Puppy in flowers) AI-generated

- Extremely perfect fur and lighting
- Background looks slightly artificial
- “Too cute to be real” effect

(Handwritten note) Human-made

- Natural handwriting imperfections
- Real pen pressure and spacing
- Looks like a real notebook

(Typed paragraph) AI-generated

- Very polished, structured language
- Repetitive descriptive style
- Sounds like generated content

Smart cities

AI doctors

Future of AI

AI teachers

Automation everywhere

Group Task:

- Each group suggests **1 AI idea for future jobs**

AI Ideas for Future Jobs

1. AI Health Assistant	👉 AI that checks symptoms and suggests basic treatment **Example:** Chat-based doctor assistant
2. Smart Career Guide AI	👉 AI that suggests career options based on skills & interest **Example:** “You like design → Try UI/UX career”
3. AI Personal Tutor	👉 AI that teaches students based on their learning speed **Example:** Like a smart version of **Khan Academy**
4. AI Mental Health Companion	👉 AI that talks and supports people emotionally **Example:** Mood-check chatbot
5. AI Resume Builder & Job Matcher	👉 Creates resumes and finds perfect jobs **Example:** “Best job for your skills = Data Analyst”
6. AI Content Creator	👉 Generates videos, reels, blogs automatically **Example:** Helps influencers grow faster

AI Ideas for Future Jobs

7. AI Smart Farming Assistant 🌾	Helps farmers with crop prediction & weather **Example:** “Best time to grow wheat”
8. AI Traffic & Smart City Manager 🚦	👉 Controls traffic and reduces jams **Example:** Smart signals based on traffic
9. AI Cybersecurity Analyst 🔐	👉 Detects hacking and protects data **Example:** Alerts when suspicious activity happens
10. AI Shopping Assistant 🛒	👉 Suggests what to buy based on need & budget **Example:** “Best phone under ₹15,000”
11. AI Fitness Coach 💪	👉 Personalized workout and diet plans **Example:** Tracks steps, calories, health
12. AI Travel Planner ✈️	👉 Plans trips automatically **Example:** Budget + places + hotel in one plan
13. AI Legal Advisor ⚖️	👉 Gives basic legal guidance **Example:** Helps understand rights
14. AI Teacher Assistant 👩‍🏫	👉 Helps teachers check assignments & track students **Example:** Auto grading system
15. AI Disaster Prediction System 🌍	👉 Predicts floods, earthquakes **Example:** Early warning system

"AI is not the future
it is the present.
The earlier you learn it,
The stronger your career will be."

Thank you

KAMALNAINX
